

DO NOTHING OR DO NO HARM? COMPETING VALUES IN HEALTHCARE INTERPRETING

Members of the Healthcare Team: Ethical Practice through the Lens of Demand Control Schema

The practice of healthcare interpreting is a specialization with a unique set of demands, goals, and responsibilities. During this presentation, participants will examine their place and work in the healthcare setting using the framework of the Demand Control Schema. Emphasis is placed on outcome-based decision-making. Resources and practice exercises are provided for skill development.

INTERPRETERS WILL EXAMINE:

- * THE SPECIALIZATION OF HEALTHCARE INTERPRETING
 - * ETHICS & VALUES
 - * DEMAND CONTROL SCHEMA (DC-S)
- * THE DEAF COMMUNITY'S INTERACTION WITH THE HEALTHCARE SYSTEM
 - * APPLICABLE LAWS
 - * THE HEALTHCARE SETTING
 - * DC-S APPLICATION

*Dive into and
apply the critical
themes for
effective
healthcare
interpreting.*

The presenter is a nationally certified interpreter with a Master of Science in Healthcare Interpretation. She has been interpreting and presenting in the healthcare setting for over 12 years.
